AMBASSADOR PROGRAM

i

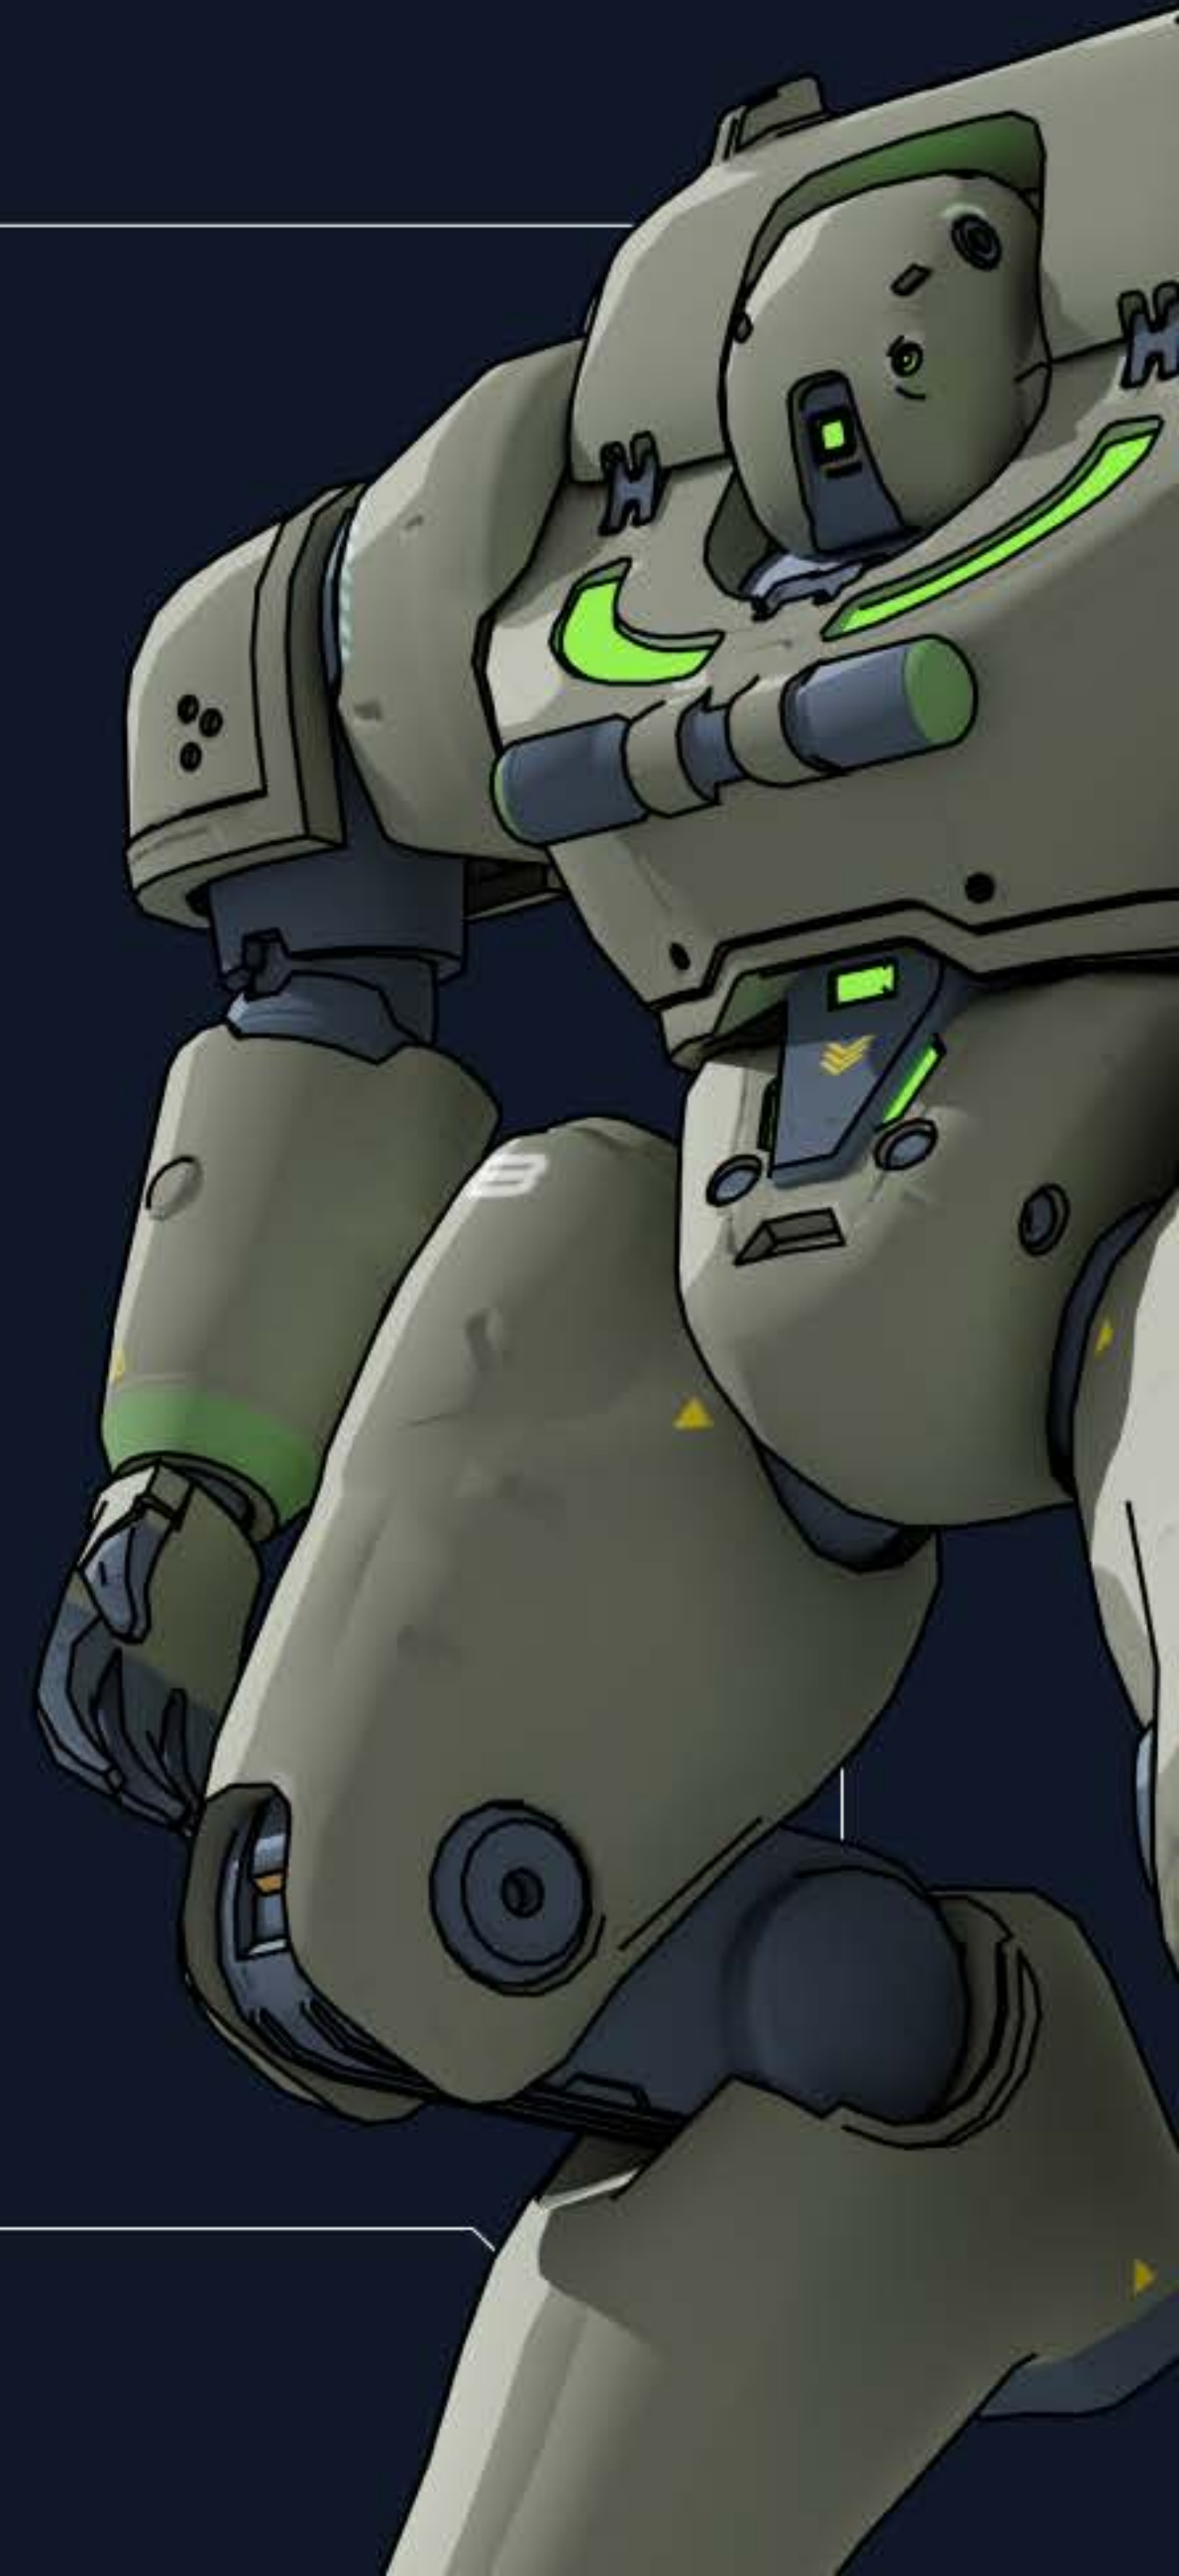

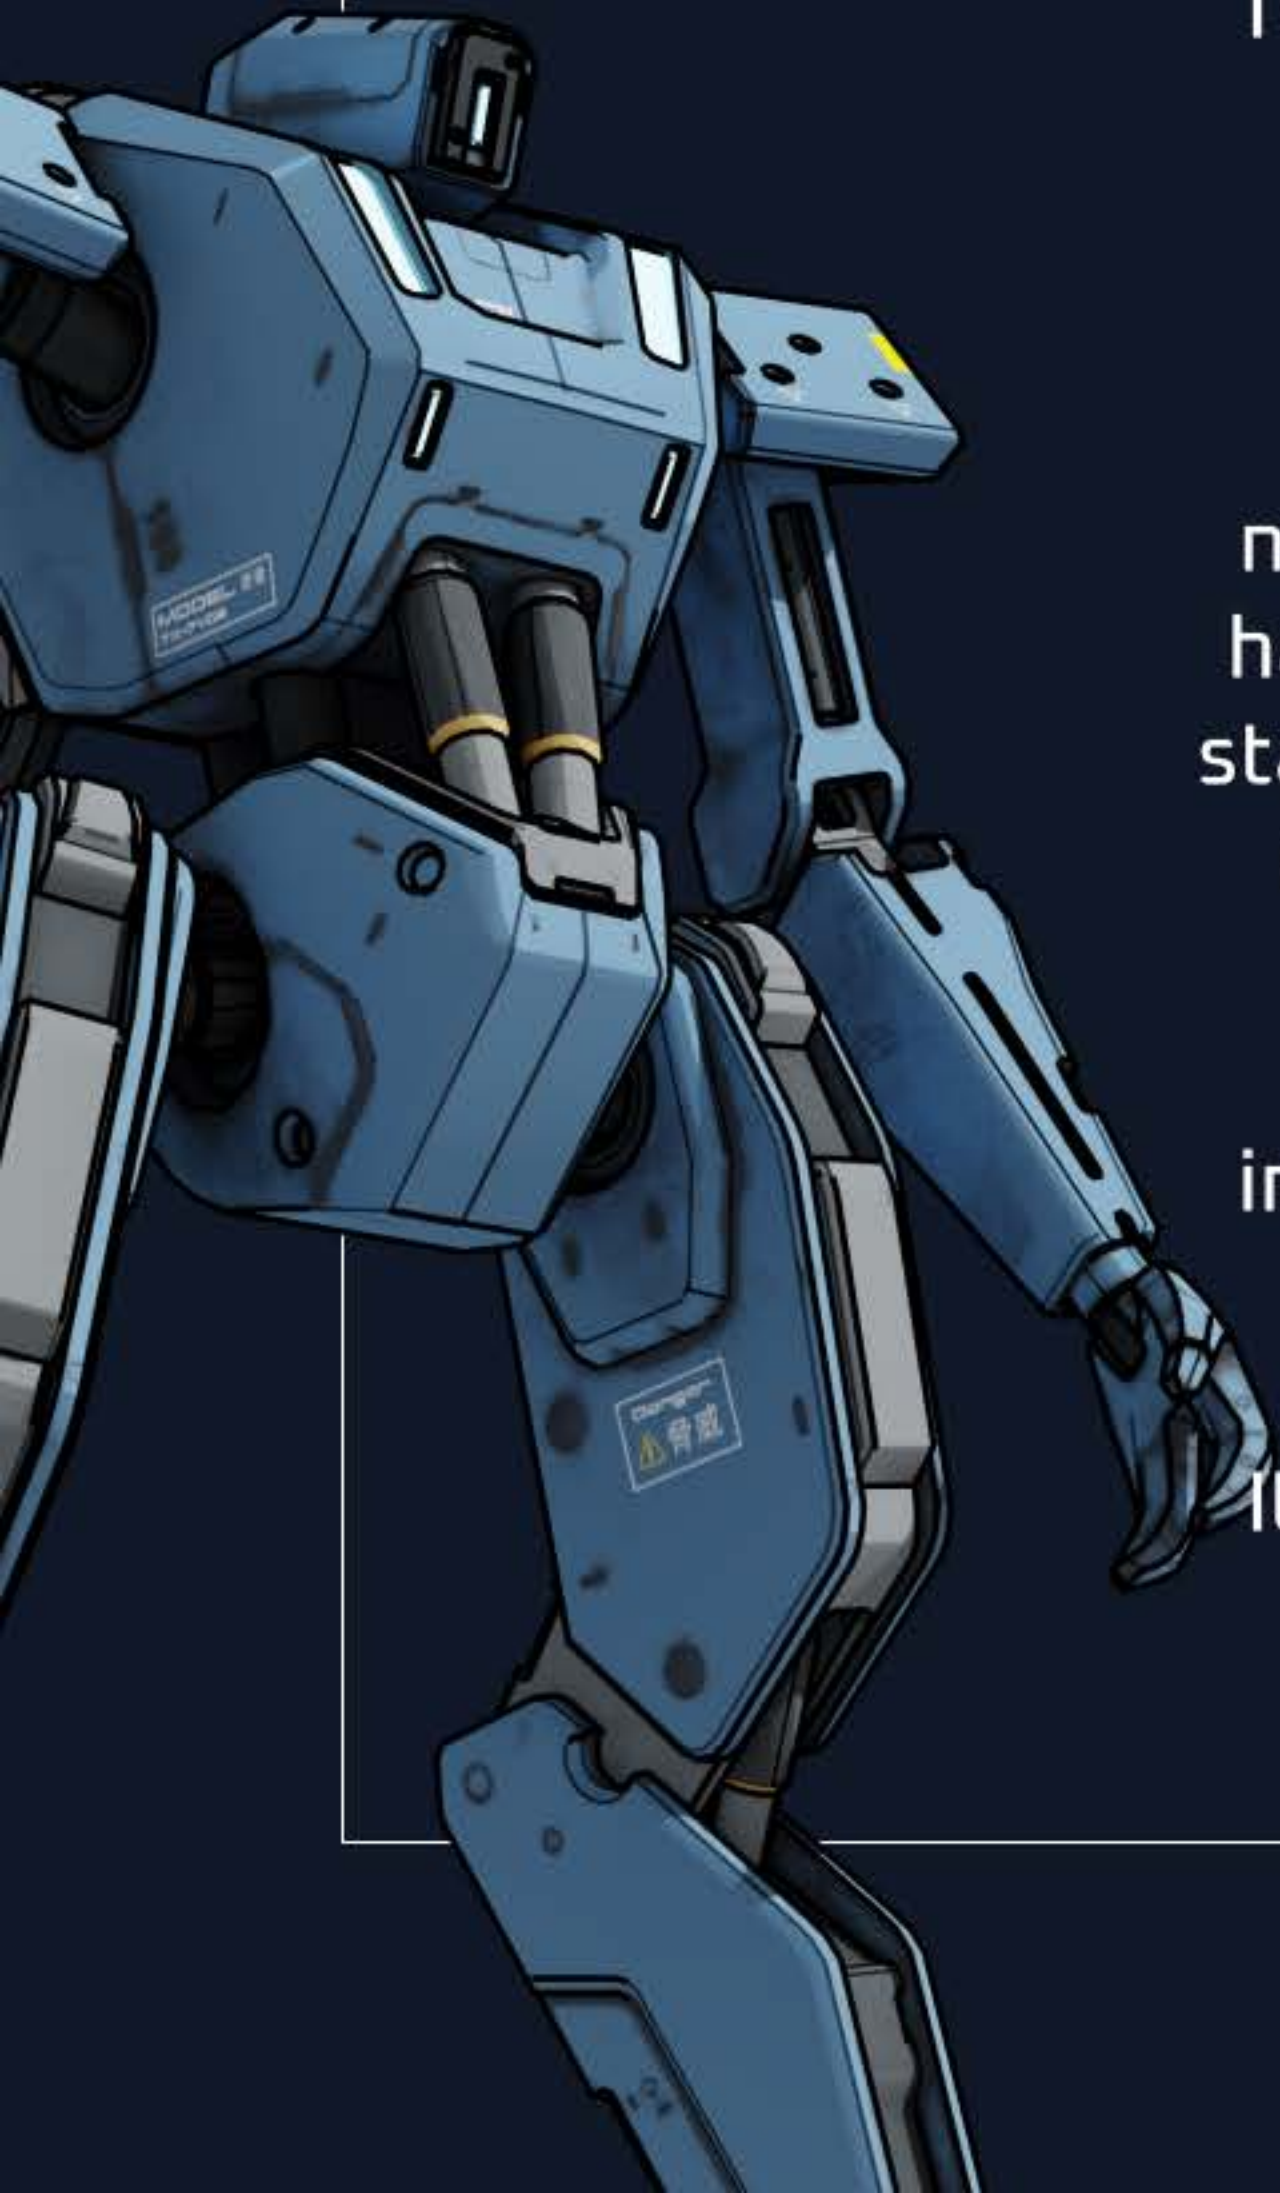

ABOUT

The Ambassador Program represents a cooperative effort to foster the adoption of RoboHero within the Web3 community by encouraging the creation of original content.

We've noticed a significant number of community members naturally participating in this endeavor. Consequently, the program has been instituted to acknowledge and incentivize individuals who stand out for their extraordinary contributions in crafting remarkable content and disseminating it across their social media platforms.

Our Ambassadors are comprised of skilled content creators, influential leaders within X and Discord communities, and visionary project developers.

It is an exclusive group, and we are actively searching for the most exceptional individuals to join our ranks!

WHAT CAN WE GUARANTEE YOU?

Exclusive access to RoboHero.
